EXPERIENCE

Senior Product Designer, Lollypop Design - Mumbai *August 2024 – Present*

- FYNDNA (deployed) | Banking B2B Impacting **2M+ users** of main client, **HDFC Bank**

- **Set an AI process** by collaborating with the developers to ship design-to-code, where I **write UI code in SIT (testing environment)** against the coded design system for developers to pick up and sitch into their main framework, preventing UI from drifting.
- Won **Promoter's Choice** and **Best Team** awards at internal AI Hackathon (team of 3) **solving 3 manual processes** at FYNDNA.
- **Led 10+ flows** (CIC, application tracking, party details, maintenance) in collaboration with product, developers, and co-founders to enhance user experience leading to **25% improved discovery** and **15% reduction in task completion time**.
- Saving **30 mins/screen** and taught my team how to transition to figma MCP and artifacts when it was released.
- **Mentoring 2** aspiring designers who want to transition from Engineering to UX Design.

- Royal Enfield Apparel | E-Commerce - Impacting **3.3M+ users**

- **Improved product discovery by 8%** by streamlining product discovery, reducing friction in browsing journeys, and navigation.
- **Increased average session duration by 12%** by integrating brand storytelling with commerce, encouraging deeper exploration of apparel collections.
- Conducted a **workshop for 30 attendees** on research biases, facilitating team activities to test and validate biases.
- Developed **8+ pitch decks and 30+ estimate**s to attract new clients, directly contributing to **2 successful conversions**.

Product Designer, ZEUX Innovation - Mumbai *May 2022 – March 2024*

- Terrapay Beta Testing- User Research, Usability Testing | B2B International Payments

- Interviewed **18 beta testers** to identify trust, credibility, and incentive gaps in Terrapay's beta testing platform for a niche audience.
- **Created and tested** the internal backend of the platform with 10 Terrapay employees to align with user expectations and improve user experience.

- ICICI Bank UP Research | Banking — Impacting **2.5M+ users**

- Conducted **24 primary user interviews** across **4 cities** to understand UPI behaviour; delivered a strategic research handbook to help ICICI stand out as a UPI provider.
- Design directions **went live after just 4 days of completion** and resulted in the return of **3 return projects** from ICICI Bank.

- Informist Media | Financial News — Impacting **2L+ users**

- Designed the **subscription model and the news feed interaction** where users curate their payment package basis the news topics they chose to follow. This project had complexity to understand needs that were **real time and curated.**
- I have written **3 articles** for the ZEUX Innovation website.

CERTIFICATION

Design MBA Online Certification (Sept 2025 – May 2026) - Built business fluency to tie design decisions to measurable outcomes.

SKILLS

Product Design and AI-Native design, Leadership, Systems Thinking, Complexity and constraints, Iterative Design, Claude Code, Figma MCP, UX Research, Responsive Design, AI & Design Systems, User Research & Analysis, Storytelling

EDUCATION

- Post Graduate Program: UX Design - ISDI Parsons, Mumbai *August 2022-2023*

- B.Tech: Electronics Engineering - Fr. Conceicao Rodrigues College of Engineering, Mumbai *June 2016- 2020*
